

This map shows the area within the Scandia-Marine Exchange (phone numbers 651-433-xxxx).

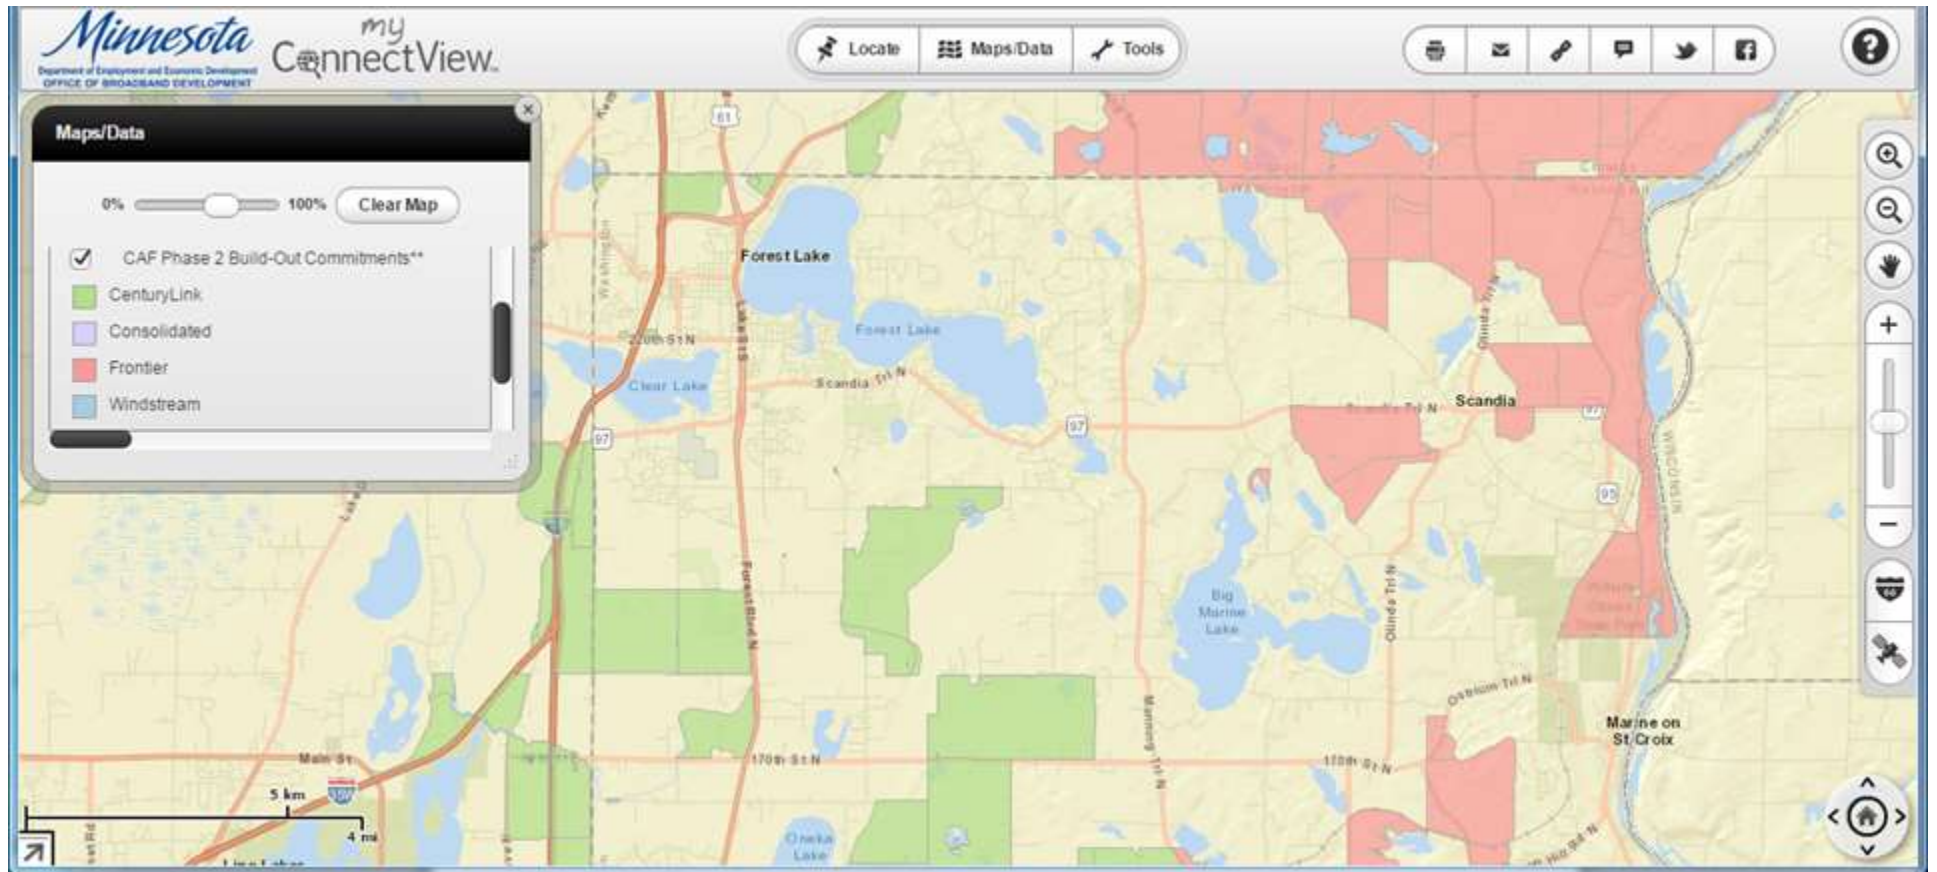

Frontier indicated their planned upgrades will be for the entire exchange.

This map shows the areas where DSL service is currently available (in Purple).

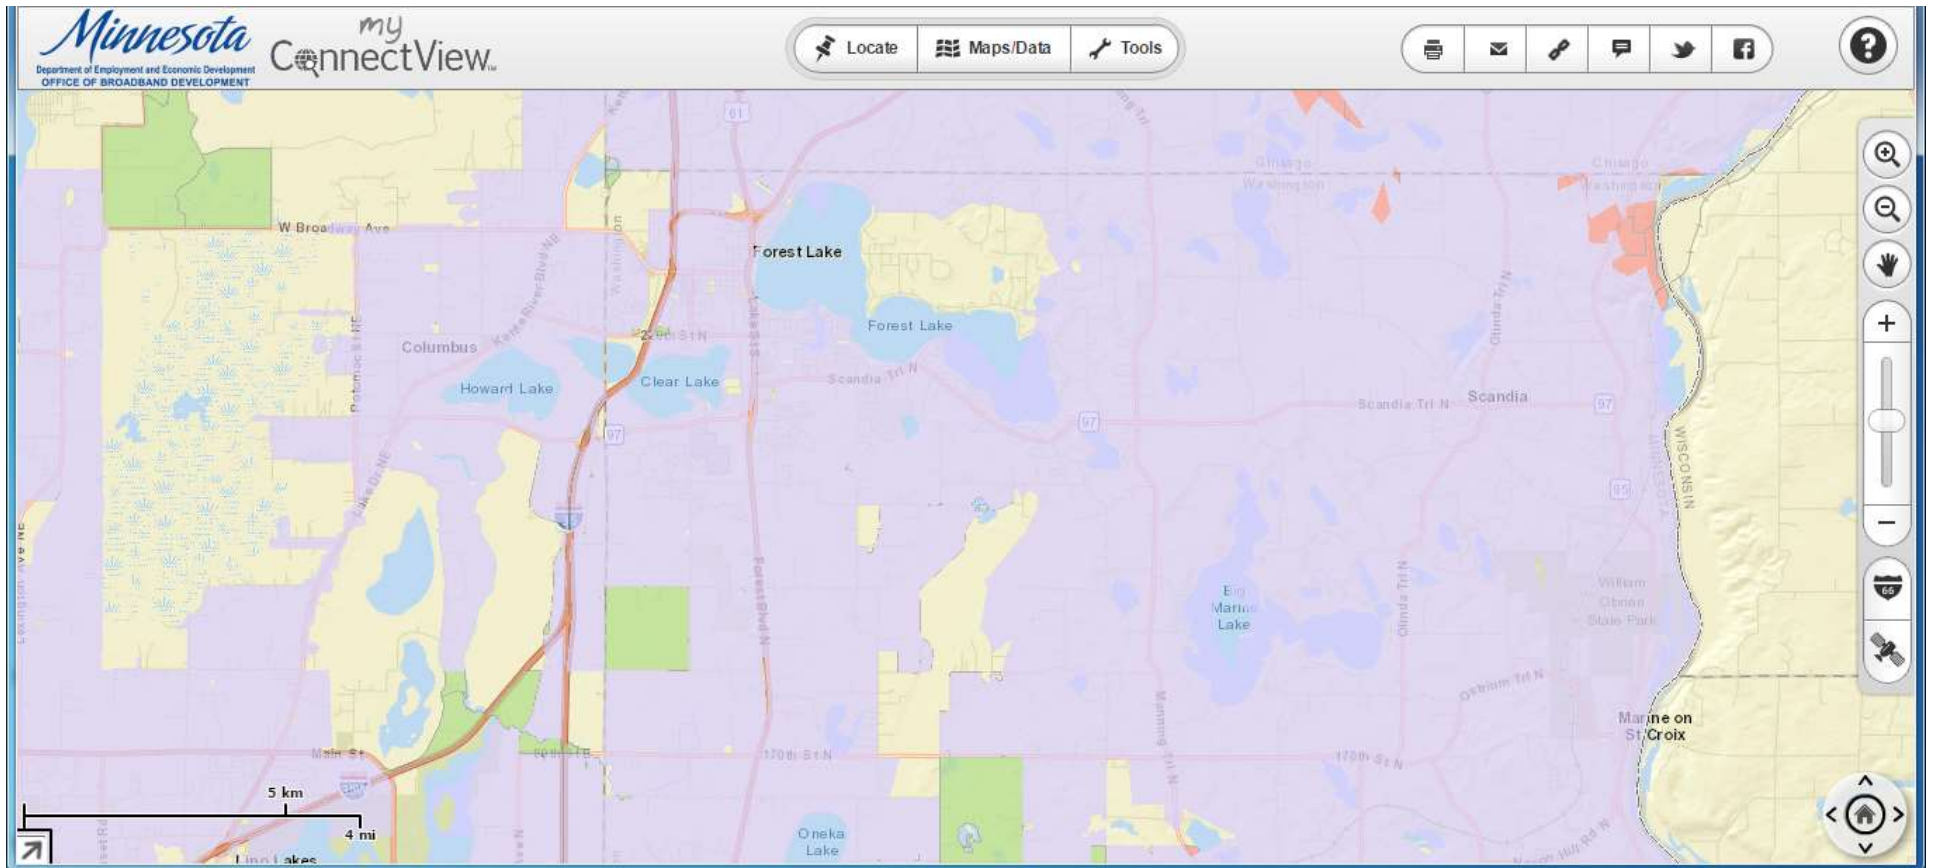

Only a small portion of Scandia does not have DSL available today.

This map shows the areas where Connect America Fund grants have been awarded.

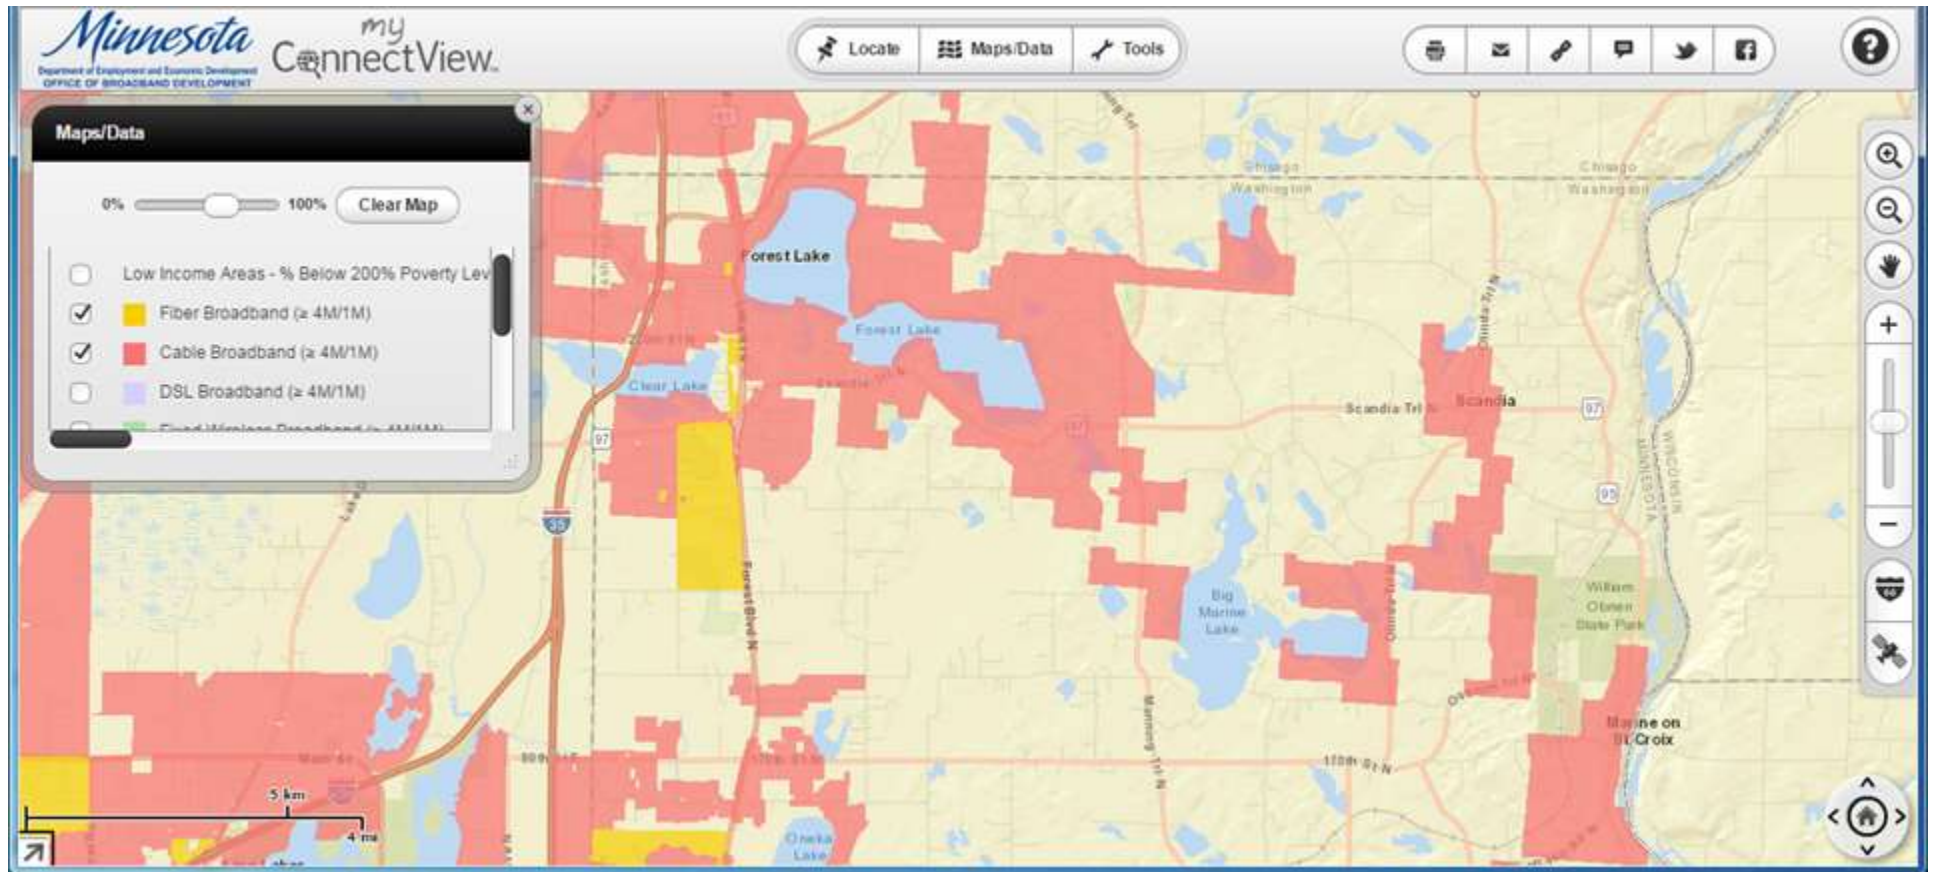

Pink is the area Frontier has been given grant funding.

This map shows the overlay of existing DSL coverage and the Frontier Grant expansion areas.

It looks to me that this covers almost every home and business in Scandia.

This map shows the areas where High Speed Internet is currently available (in Pink).

Expanding this area will require additional talks with Frontier and Mid Continent Communications.
